Retina Specialists

David Chin Yee, MD, FASRS

David Chin Yee, MD, FASRS, was born and raised in Jamaica until the age of 16, when he came to the United States. He began his career in medicine after graduating summa cum laude from the University of Miami. He later attended the University of Miami's Miller School of Medicine and completed his residency in Detroit within the Henry Ford Health System. Following his residency, Dr. Chin Yee finished a fellowship in medical and surgical retina at Washington University School of Medicine in St. Louis and Barnes Hospital/BJC. Dr. Chin Yee chose Vitreo-Retinal surgery as his specialty due to the wide, reaching, and complex pathology of the specialty that enables him to touch a multitude of lives. He also enjoys how the specialty is integrated with technology, which enhances his ability to assist his patients.

Dr. Chin Yee has initiated and participated in numerous clinical trials. In addition, he has authored numerous scientific articles on a broad array of topics including diabetic retinopathy, central serous chorioretinopathy, macular degeneration, and ocular histoplasmosis. In addition to his articles, Dr. Chin Yee also maintains an invention disclosure with the University of Miami for an eye drop holder. He has lectured at numerous national meetings on topics including macular degeneration, diabetic retinopathy, and retinal detachment surgery. He has also served as a peer reviewer for Ophthalmology, RETINA, and Ophthalmic Surgery Lasers and Imaging. He also has a broad range of clinical interests within retinal disease and surgery, including management of complex retinal detachments, macular degeneration, diabetic retinopathy, as well as macular pucker surgery.
