

**Miguel Busquets, MD, FACS, FASRS**

Miguel Busquets, MD, FACS, FASRS, is a vitreoretinal surgeon with Retina Associates of Kentucky and Chairman of the Medical Executive Board Technology and Innovation Committee for EyeCare Partners. Dr. Busquets is a graduate of Harvard University and Duke University School of Medicine and completed his ophthalmology residency and vitreoretinal surgical training at Washington University School of Medicine. Dr. Busquets serves as clinical instructor at the University of Kentucky College of Medicine and has served as clinical instructor at the University of Pittsburgh. He founded the research department and was vitreoretinal fellowship director at Associates in Ophthalmology in Pittsburgh, PA. Currently, he is actively involved in research in the areas of surgical technology and drug development for macular degeneration and diabetic retinopathy, as well as artificial intelligence-based imaging and remote monitoring for retinal disease. While serving as Chairman of Technology and Innovation for EyeCare Partners, the largest vertically integrated ophthalmic healthcare delivery system in the United States, he is a national expert in retinal telehealth and artificial intelligence, and is the author of multiple publications in this area.
